

CHAPEL ENGINEERING

Sales, service and repairs to all makes of hand pallet trucks

CHAPEL 2000 S/S

The Chapel 2000 stainless steel truck is designed for corrosive environments or applications requiring high levels of hygiene, such as the pharmaceutical and food industries.

The satin finish ensures an easy-clean hygienic frame and as with all our trucks the stainless steel model meets current safety regulations and comes in standard sizes.

The high specification of this truck couple with Chapel Engineering's commitment to quality of service ensures a long and cost effective life.

2000kg capacity

ABOUT CHAPEL ENGINEERING

Chapel Engineering is an independent company established in 1999. We supply and service hand pallet trucks providing the highest levels of service at realistic prices. By working closely with our customers and because we are independent of any manufacturers, we are able to provide the right truck for a wide range of applications.
